

Wednesday 5 April 2017	
14:00 – 18:30	DES Examinations - Session 1 Balliol College - Massey Room, Buttery Room, LR 23

Thursday 6 April 2017	
08:30 - 12:30	DES Examinations - Session 2 Mathematical Institute - CR 1- 6/ Undergraduate Study
12:30 - 13:30	Lunch for Examiners
13:00 - 18:30	Registration Desk Opens
13:30 - 17:00	Education Event - Video Session <b>How I Do It</b> Retrosternal goitre                      Antonio Sitges Serra, Central compartment dissection      Marco Rafaelli, Scarless surgery                            Anatoli Romanchishen, VATS parathyroidectomy                Titus Cvasciuc Laparoscopic adrenalectomy            Radu Mihai
13:30 - 14:00	National Delegates Meeting    CR2
14:00 - 17:00	ESES Executive Meeting        CR3
17:00 - 17:15	Coffee Break and Exhibition Viewing Time
17:15 – 17:30	Welcome Address, Radu Mihai
17:30 - 19:00	Scientific Symposium: L1 <b>Fluorescent Techniques in Endocrine Surgery</b> Francois Triponez, Dana Hartl, Jordi Vidal
19:30 – 21:00	Welcome Event – Natural History Museum (all registered members to attend)

<b>Friday 7 April 2017</b>	
08:15 - 08:30	Welcome Introduction - ESES President, Anders Bergenfelz
08:30 - 10:00	<b>Normocalcaemic Primary Hyperparathyroidism L1</b>
08:30 - 08:45	Criteria for securing the diagnosis of normocalcaemic PHPT Prof C Marcoci
08:45 - 09:00	Outcomes of imaging and operating for normocalcaemic PHPT J Gomez Ramirez
09:00 - 9:10	<b>Free papers</b> <b>OC 01:</b> Normocalcaemic Primary Hyperparathyroidism – an asymptomatic and mild disease? A Zahn
09:10 - 9:20	<b>OC 02:</b> Mild primary hyperparathyroidism is overlooked and suboptimal handled in the clinical setting. J Hennings
09:20 - 9:30	<b>OC 03:</b> Is parathyroidectomy safe and effective in patients with normocalcemic primary hyperparathyroidism? M Rafaelli
09:30 – 9:40	<b>OC 04:</b> Quality of life and non-specific symptoms in normocalcemic primary hyperparathyroidism. E Mirallie
09:40 - 10:00	Panel discussion
10:00 - 10:15	Coffee Break and Exhibition Viewing Time
10:15 - 11:45	<b>Conn syndrome - an insufficiently recognised cause of hypertension</b>
10:15 – 10:25	<b>Free papers</b> <b>OC 05:</b> Clinical and pathogenetic variety of primary hyperaldosteronism from the large consecutive institutional series of patients. S. Cherenko
10:25 – 10:35	<b>OC 06:</b> Primary Hyperaldosteronism: Non-Invasive Lateralization Studies And Outcome Of Endoscopic Adrenalectomy. M Rafaelli
10:35 - 10:50	Molecular imaging and analysis in primary aldosteronism Professor Morris Brown, London
10:50 - 11:05	Quantifiable benefits of adrenalectomy for Conn syndrome Professor Maurizio Iacobone, Padova
11:05 - 11:20	Unilateral adrenalectomy for bilateral hyperplasia ? Professor Martin Walz, Essen
11:20 - 11:45	Panel discussion: Why so few hypertensive patients are being considered for investigations?

11:45 - 12:30	<b>Presidential Address</b> - Antonio Sitges-Serra <b>A new (previously unheard) approach to teach parathyroid surgery</b>
12:30 - 13:30	Lunch, Poster Session and Exhibition Viewing Time
13:30 - 14:15	Lunch symposium: <i>Science of Tissue Management</i> Giovanni A. Tommaselli, M.D., Ph.D. Medical Director - Johnson & Johnson

14:30 - 15:45	Extraordinary General Assembly
15:45 - 16:00	Coffee Break and Exhibition Viewing Time
16:00 - 17:30	<b>Subclinical Cushing Syndrome</b>
16:00 - 16:30	Natural history of untreated subclinical Cushing syndrome Professor John Newell Price, Sheffield
16:30 - 16:45	The evidence in favour of adrenalectomy Radu Mihai, Oxford
16:45 - 16:55	<b>Free papers</b> <b>OC 07:</b> Comparison of clinical presentation in patients with non-functioning adrenal tumours and patients with subclinical and clinical hypercortisolism. A. Bergenfelz
16:55 - 17:05	<b>OC 08:</b> A Series of Patients with Subclinical Cushing's Syndrome Undergoing Adrenalectomy. A Di Marco
17:05 - 17:15	<b>OC 09:</b> Posterior retroperitoneoscopic adrenal surgery for clinical and subclinical Cushing's syndrome in patients with bilateral adrenal disease. B Seeliger
17:15 - 17:30	Panel discussion and proposal for a trial
17:30 - 18:30	<b>Scientific Lecture:</b> Professor Raj Thakker From laboratory to bedside: testing the efficacy of treatment for subclinical neuroendocrine tumours
19:00 - 19:30 19:30	Gala Dinner – Pre dinner drinks Master Lodgings, Balliol College Gala Dinner – Balliol College Dining Hall (tickets to be purchased)

Saturday 8 April 2017	
8:30 - 8:40	<b>Four best abstracts on general topics</b> <b>OC 10:</b> Management of MEN1 related non-functioning pancreatic NETs: a shifting paradigm. Results from the Dutch MEN1 Study Group. S Nell
8:40 - 8:50	<b>OC 11:</b> Quality of life after parathyroidectomy in secondary hyperparathyroidism. F Montenegro
8:50 - 9:00	<b>OC 12:</b> Objective analysis of swallowing and voice outcomes after thyroidectomy: a prospective cohort study. T Gumus
9:00 - 9:10	<b>OC 13:</b> Can Parathyroid Glands Remaining In Situ (PGRIS) score predict postoperative hypocalcaemia in children undergoing total thyroidectomy. H Nounou
09:10 - 9:45	<b>Eurocrine – the first data.</b> - Anders Bergenfelz
9:45 - 10:15	Coffee Break and Exhibition Viewing Time
10:15 - 13:00	<b>Incidental papillary thyroid cancer</b>
10:30 - 10:40	Incidental findings on ultrasound, CT and PET scanning – the main cause of increasing incidence of thyroid cancer Kerstin Lorenz, Halle
10:40 – 10:50	Surgery for incidentally diagnosed papillary microcarcinoma Ozer Makay, Izmir

11:00 - 11:15	When is completion thyroidectomy indicated? Patient-centered decisions David Scott-Coombes, Cardiff
11:15 -11.25	<b>Free papers</b> <b>OC 14:</b> Incidental papillary thyroid microcarcinoma – a study of 2466 patients operated for benign thyroid disease. N Slijepcevic
11:25 -11.35	<b>OC 15:</b> Cancer masquerading as Bethesda II in solitary thyroid nodules $\geq 3$ cm in size: time for adjustments. S Bakkar
11:35 -11.45	<b>OC 16:</b> 18 F-DOPA PET/CT in initial staging of medullary thyroid carcinoma. T Sole
11:45 -11.55	<b>OC17:</b> Increased annual incidence of papillary thyroid carcinoma due to a more frequent diagnosis of subclinical tumors. C Gonzalez-Sanchez
11:55 -12.05	<b>OC 18:</b> The changing landscape of clinicopathological characteristics of thyroid cancer over the last 35 years among 19,976 surgical patients. A Konturek
12:05 - 12:50	Panel discussion: Increasing diagnosis vs. restricting the extent of treatment
12:50 - 13:05	Closing remarks by ESES President
13:05 - 14:05	Lunch / meeting closes
